FRANK UTINGER, the young man who shot and killed James Myers in Fayette, was promptly acquitted by Judge Bullock Saturday afternoon at 5 o'clock. AFTER one of the banks in a Colorado town had announced its suspension the other day a man who had \$10,000 on deposit went into the concern with a horse pistol, and compelled the cashier to hand over the money. THE law firm of Hallam & Myers, Covington, is entitled to a gold medal as well as the thanks of Court Clerks and Judges. It filed an important damage suit, and the whole story, with the usual prayers and petitions, is given in just seven lines. The plaintiff in this case is George Todd, who wants \$3,000 damages from John McKnight, whom he asserts four weeks ago beat and clubbed him, inflicting injuries to that amount.

LOUIS ECKERT filed suit against the Newport Rolling Mill Company for \$5,000 damages for injuries received by being struck in the head with a brick thrown by one William Carney, who at the time was also in the employ of the same company. The plaintiff, who was laid up for a couple of weeks from the effects of his injuries, and came nearly dying, claims that as the brick thrown was not intended for him, the company is responsible for the injuries he sustained. The case is a very peculiar one, and the first of its kind ever filed there.

IN yesterday's article on standard time a few papers were printed telling LEDGER readers to set their watches "ahead" twenty-six minutes. SARAH BAER, a pretty young Jewess about 22 years of age, living near Pomeroy, was taken suddenly insane on the train a few days ago coming from Springfield, where she had been visiting with a married sister. UNITED STATES sub-Treasurer Bailey at Cincinnati has received instructions from Washington to reject and place a distinguishing mark upon all gold coins of the United States presented at his office for deposit and found below the current weight. Many persons present gold coins at the Treasurer's office to ascertain whether the money is good for current circulation, and they are immediately stamped with an "L." To obviate this the proper method to pursue is to sell the coins to some jeweler for what they are actually worth as gold bullion.

HENRY LATCHFORD, a "graduate" of a Keeley Institute, writing in *The Courier-Journal*, divides those who relapse into drunkenness, after taking the Keeley cure, into three classes as follows: First, men without any moral nature, and with a touch of idiocy or imbecility; second, men with hereditary or acquired talent of insanity, who are not responsible for their actions; third, men of abnormal phlegmatic temperament, who require alcohol to set in any sort of motion their inferior quality of brain. Such men as those in the third class have no interest in life, and there is nothing to be made of them. The two former classes should be in asylums for imbeciles or the insane.
